

## DESIGN PALETTE

### Color Scheme:

To keep the page as minimalist as possible, the color scheme is limited to three colors other than white:

`rgb(119, 108, 92)`

This brown color is used exclusively for text within buttons and the borders of the buttons.

`rgb(201, 201, 201)`

This tan color will be used to create separation in the webpage. It will serve as a backdrop, the page will alternate between this color and white as a background as you scroll down the page.

`rgb(0, 0, 0)`

Black will be used for all fonts throughout the page and for all icons.

### Fonts:

Headers and `<h1>` elements will use Times New Roman

`<p>` elements will be in Arial.

### Buttons:

This is what the buttons will look like, brown font and border with a white background.

Click Here for Use Conditions

When hovered over, the font will change to black:
